12 (Michele Yarnwood)

13 Plaintiff(s),

14 vs.

15 Donald Trump

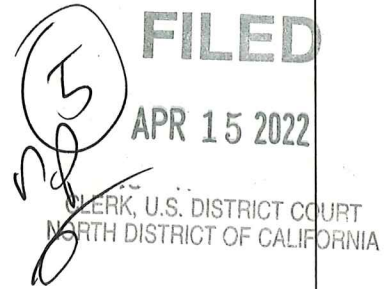

16 Defendant(s).

Case Number:

**CV 22 2402**

Title of Document:

Violation of H Conduct  
at Federal level  
with American People

JCS

TITLE OF DOCUMENT: \_\_\_\_\_ CASE NO.: \_\_\_\_\_

4/14/22

Dear Honorable Judge Laurel Becker, my heart is with the  
Angel,

Last fall, I presented to you my argument that  
Judge Thomas H. Dixon and Judge Vince Chhabria obstructed  
justice by denying me my first amendment right to re-  
present to American people in the presentation of one of  
Donald Trump's crimes against America, his violation of  
the constitutional endorsement of the American people. He committed  
his crime by changing the National Environmental Policy Act  
without the power or authority to do so. His crime is on  
three counts (1) He violated the first amendment by doing  
everything he could to make it so that people who were going to  
have their homes and property destroyed by the onset of  
large infrastructure projects would not be able to express  
their grievances, which is their right because the NEPA is  
designed to allow the public to have input on the decision-  
making process of government agencies reviewing the infra-  
structure projects. The review process is intended to deter-  
mine if the land, air, water or wildlife would be  
harmful by the construction of infrastructure.

②

② Mr. Trump violated Article I, Sect. 1 of the Constitution by denying Congress its sovereign power to make or change laws. "Legislative" means that which involves the creation or the destruction of laws. "Executive" means that which puts laws into effect. Donald Trump overstepped his authority and power when he changed the NEPA. Essentially, he attempted to overthrow the United States government in the process. He disabled the government which depends solely on the balance among the three branches, the executive, the legislative, and the judicial.

③ Mr. Trump violated the preamble of the Constitution which strives to promote the general welfare of the nation, doing everything he could to ensure that the cumulative effect of global warming would not be ever considered by the government officials reviewing the infrastructure proposals. By doing so, he endangered the country with the threat of global warming, rendering us susceptible to deaths by starvation due to drought and death and destruction of homes due to environmental disturbances.

(3)

such as hurricanes, tornadoes, and wildfires.

You dismissed my case against Judge Hixson and Judge Chleboun on the grounds that I was supposed to appeal their dismissal of my case against Trump and that judges have immunity. You said that it was not advisable for me to make a "collateral attack" against them (Thank you for not humiliating me the way Judge Hixson did in his dismissal!) However, I must object to your claim that I was obligated to appeal, yet I did not do so. Now when the constitution is to interpret the "appeal" other than that of "appellate jurisdiction", which is the only duty that the law gives to the Supreme Court (The constitution does not say that they serve in any other capacity, nor does it say that they can tell the rest of us what to do, or what the constitution allows us to do.) Any "appeal" other than that of the guilty defendant's plea to the Supreme Court is unconstitutional. Even "courts of appeal" are unconstitutional as well because they challenge the law.

①

Supreme Court's appellate jurisdiction, and they also violate double jeopardy. Therefore, I am not obligated by the law to "appeal" the dismissal of my case against Donald Trump.

Furthermore, all dismissals are unconstitutional because they allow judges to deliver negligent verdicts to defendants without the ~~consent~~ <sup>consent</sup> of a jury. "The trial of all crimes shall be by jury." (This means no bench trials.) By dismissing cases, judges violate Article I, Sec. 2 of the Constitution. Plaintiffs and victims have no chance to prove the truth of their claims against the defendant. This is unacceptable. Therefore, it is my right to demand that Judge Kavanaugh and Judge Chhabria be punished for dismissing my case against Donald Trump. Judges do not, in fact, have immunity. (Not worry, I will never go after you in court for anything the Supreme Court has covered you to do, such as dismissing cases.) It is not to show the law, not the president, the Congress or the courts.

8

Court and judges. Isn't it absurd that the Supreme Court give itself immunity? How dare they do that!

So, I am asking you to allow me to once again file a lawsuit against Judge Kavanaugh and Judge Alito for the sole purpose of ultimately achieving justice for the American people concerning Donald Trump's violation of the Constitutional obligation of the American people. I am in no way trying to outgonize the two judges, or the Court as a whole. I only want to assert my own sovereign power I possess as an American citizen. It is my First Amendment right to speak up in court as to what I believe did occur when Donald Trump changed the NEA to what the people do so,

I need your help. Without your compassion, loving heart, I cannot do anything. You are a light shining in the darkness. Everyday, you bring Justice, closure, and consolation to so many people who beseech your help in

(6)

the achievement of restitution for the wrongs committed against them. What if you, there would be no justice in this world. I am not hectoring you. I am merely stating that you are beautiful in spirit (and, yes, you are very pretty, too!) and that I am coming to you peacefully because I honestly do not trust any other judge in District Court.

Will you allow me to once again appeal to a jury, as is my right, and prove that Donald Trump hurt America by changing the NEFT, and must be punished for doing so? All I need is the chance to prove in court that, indeed, he hurt us all by blatantly choosing to aid a few wealthy individuals, builders of infrastructure, etc., at the expense of the entire American people. If you allow me the opportunity, I will prove that all of Mr. Trump's excuses are bogus and ridiculous.

Here are his excuses for changing the NEFT:

- ① He claimed that he wanted to help the United States economy. This assertion is false because infrastructure not only does not help the economy, it actually detracts from it.

(4)

This is because the United States economy is based on small businesses, which rely solely on the aesthetic appearance of their surroundings. When a town or region is pleasant to the eye and ear, people come into it, stroll along its sidewalks, browse in its <sup>and</sup> shops, eating and drinking in its cafés and restaurants. The more they enjoy themselves, the more the economy of the town flourishes.

However, when a large infrastructure project comes through the town, inundating the region with noise and pollution, who would want to come into it, let alone live there? No one, of course. Furthermore, infrastructure is almost always built in regions of poverty so that it is the poor who lose their homes, not the wealthy few.

Exame #2. Mr. Trump claims that he would make America safer by building new roads and highways. This

②

argued it untrue because high speed travel on  
freeways is far more dangerous than travel on  
backroads with potholes in them. ③ He claimed that  
he wanted to create jobs for American people.  
This is false because there is no guarantee that  
the firms doing the building or the infrastructure will  
hire more people to do the work, all that the jobs that  
they do provide are going to be only temporary. The  
hazardous jobs that an airport provides, for example,  
is not enough to help the entire nation.

④ He claimed that he wanted to make the commute  
to and from work shorter for Americans. This is false  
because traffic jams occur just as often on highways  
as they do on backroads. ⑤ He claimed that he wanted to save time  
as time along for the tax-payers. This is ridiculous because  
shortening the permit acquisition process of the government is an

(9)

at the risk of completely disabling NEER, it unnecessary.  
 All that Mr. Tray had to do is hire a few more government  
 officers to aid in the reviewing of the proposals.  
 Time would be saved, as money saved, because they  
 would be trained more efficiently in discerning as to  
 what will or will not harm the environment.

In the course of the trial, I will provide evidence  
 that with irrefutable Mr. Tray without a doubt as for  
 the deviousness as his intentions while making the  
 restrictions on the NEER. For example, he changed the  
 word "shall" into permissive policy <sup>section</sup> ~~section~~ of  
 the law to "should". This means that whereas before  
 the agencies were compelled to do such and such, they  
 now could choose for themselves what to do or not to do.  
 I will also provide lots of restriction that he  
 made in order to stop people from speaking up when  
 their homes were going to be demolished, making it  
 so that people would not even know about it.

(10)

lose them.

I will present witnesses to the jury who will substantiate my claim that Donald Trump violated the constitutional obligation to the people. Many people will be subpoenaed to testify that President has no power to change laws. My friends, Jerry, Helene, Bruce, and Janet, all employees at Saint Francis Memorial Hospital (where I have been a patient many times) will testify that global warming is a threat to mankind and that the balance of the three branches of government must be maintained if we are going to survive as a nation. Police officer John Varnick will testify that law enforcement has the power and right to arrest any government official who oversteps his or her power, such as a president who changes laws without the authority to do so.

Finally, I want to stress that it is paramount to

(11)

Donald Trump be sent to Saint Francis psych ward on a 5150 hold because he fits all the criteria message. He is a danger to himself, a danger to others, and is at times gravely disabled. He is a paranoid schizophrenic, bipolar, obsessive compulsive, and is presently suffering from depression due to his ~~hypothroid~~ <sup>hypothyroid</sup> condition. I need him to be cared for so that when I get him into court, I will not devastate his already fragile emotional and mental state by condemning him in front of the entire world. I must show to many of Our Father's children. I have prepared to stalk at Saint Francis so that they will be ready. He deal with Mr. Trump's mental illness. Once I cannot him in court, he must be returned to the same hospital and again be cared for until he is fit to be tried for treason. He committed treason against the U.S. by lying with his assault on the Capitol. He is a very dangerous.

(2)

lots of ~~connections~~ <sup>connections</sup> among people with similar violent intentions. If he is allowed to remain unaccountable for his betrayal of Americans, the morale of America will suffer to the point where faith in our Constitution will dissolve into ashes, as the essence of democracy will be consumed by anarchy. This must be prevented if we are going to continue to exist as a nation.

Please consider all that I have explained to you. I trust you completely, Mr. Biden. The future of America depends on your shoulders. If you allow me to prosecute Trump for violation of the ~~Constitution~~ <sup>Constitution</sup> and endangerment of the American people, I will be eternally grateful to you, as I already am for your service to the country thus far.

I love you and God bless you.

Sincerely, Jesus Christ

Med. 11

(3)

P.S. Here is an example of the question I will ask of Mr. Trump when on the stand:

"Mr. Trump, how are you doing? It's an honor to meet you."

"I'm just fine."

"I voted for you. [I didn't vote for him, but I want him to think I did.] You

were a wonderful president. You helped the economy. You distributed masks and tests during Covid. Now, did you change the National Environmental Policy Act?"

"Yes."

"Did you have the power to do so?" Yes or no.

"Yes."

"Why <sup>you</sup> do <sup>you</sup> think that you had the power to do it?"

"I did because presidents are all powerful."

"Ok, let's move on. Why did you change the NEPA?"

"I did it to make America great again."

"Do you mean that America is not so great, and that maybe it's just a dump?"

14

No answer,

"Mr. Trump, you are going to be convicted for having violated the constitution and endangering the American people."

"Why? What did I do? I did nothing wrong!"

"Hm. Do you mean in your whole life, or as president?"

"Both."

"Mr. Trump. You witnessed on a bed in Russia that President Obama slept in. Do you remember the Pectape?"

Then the judge says something like "Knock it off, Jesus!"  
Then I say, "I am trying to prove a point, your Honor."

Continuing, I say: "Let's get back to charging laws. It's OK, Donald, we all do stupid things, even like urinating on other people's beds. However, lying about why you changed the NEPT, and saying that you did nothing wrong by doing so, is betrayal of the American people. You are deserting the truth and urinating on the constitution, just like that night you did in Russia with those two prostitutes. And,

(S)  
 were you really trying to help America when you  
 changed the NEERA?"

No answer.

"Mr. Trump, you don't like what is happening right  
 now, do you? Yes or no. Do you like what is happening to  
 you right now? Sure, you have a right to remain silent,  
 that's your first amendment right. But if you don't tell  
 us how you feel, the world will never know that  
 you are an angel, a beautiful, wonderful man who  
 loves animals and children, and is a responsible father  
 and husband. This is your chance. Just admit that  
 you did something wrong. You took away the most  
 fundamental freedom that the constitution provides.  
 You disabled the government. You made it so that  
 all of us might die of global warming. Do you  
 want to be remembered as a man who has no remorse  
 for betraying his country? Are you a king? Should  
 you be allowed to go unpunished for what you did to  
 the constitution and the America people? You were the  
 most powerful man in the world. Should you be allowed

to remain unaccountable when a common thief has to  
 be six months or jail time for stealing food?

That is your chance. Show the world that you are,  
 indeed, a man with integrity and dignity, one that  
 can admit that he did something wrong."

No answer. Then I look like I'm gathering my  
 thoughts, and then I say:

"Alright, let's try something else. There is a gift  
 for you. It's a rock, a beautiful creation from  
 our Father in Heaven that has a healing energy in it  
 so that when you hold it, you feel all the stress  
 or you while we leave your body. It comes from  
 the beautiful, wonderful earth that keeps us alive  
 and gives us joy, the earth that must be protected  
 by laws such as the NEPA if we are going to survive  
 as Americans."

Then I take Mr. Trump's hand and put the rock in  
 it. This is my opportunity to do what our Father  
 wants me to do. I grab Trump's hand and pull

(7)

"No more questions, you (lover)."

P.P.S. The duty agents at the FBI have two bags of rocks and crystals that I gave them to give to Donald Trump. Please let them give him these rocks because he will be able to heal himself of his mental illness, while he is in the hospital. (Of course, he will need medication, too, 150mg of lamotrigine twice a day, and 400mg of serquel at night for his insomnia. Lamotrigine is a mood stabilizer and serquel is an anti-psychotic that will help his paranoid schizophrenia. He will also need levothyroxine for his thyroid condition.
